TO WHOM IT MAY CONCERN

It is indeed a privilege and an honour to write this testimonial for FREDERIC DESAUNOIS whom I have known since he arrived at the above-named school in January 2009.

He's contribution has resulted in there being a great improvement in our IT department , namely:

- Advising about architectural structures, establishing quotations and finding funds to build our IT network
- installed new educational software (Gcompris) for our learners with a large success among them in terms of usage and motivation
- Taking a significant part in the decision of the school to launch a KHANYA project, establishing many contacts and meetings.

During this time he has proved to be a very active member of the staff:

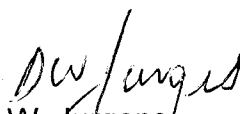

- As an IT educator he has not only proved his skills in IT but also real teaching ability for grade one to seven.
- He also has a very good rapport with those whom he comes into contact with albeit as educator, colleague or friend.

Mr Desaunois is a very open-minded person with a real passion to transmit his know-how to serve others.

Motivated by these qualities Mr Desaunois can only be an asset to any position that he may apply for. I therefore have no hesitation in recommending him to any such position.

We wish him well in his future endeavours.

Yours faithfully

D W Jurgens
